PROFILE

Passionate mobile application developer with **8+ years** of hands-on experience building robust, high-performance Android and iOS applications. Specialises in **Flutter** with deep expertise in state management (Provider, BLoC), REST API integration, health-device SDKs, and App Store / Play Store deployment. Strong analytical skills, quick learner, and effective both independently and in teams.

EXPERIENCE

Senior Mobile App Developer

Aug 2020 – Present

[iResolve Services](#) · Full-time — Mumbai, India

- Build robust, high-performance Flutter & native iOS/Android applications end-to-end.
- Own App Store & Play Store releases — certificates, provisioning, TestFlight and review handling.
- Integrate REST APIs, Firebase, payment gateways (Razorpay, PayU) and health-device SDKs (Vital, HealthKit).
- State management with Provider and BLoC; Dio, RxDart, Firebase Messaging, Flutter Downloader.
- Handle iOS builds — CocoaPods, app signing, entitlements and App Store review resolutions.
- Drive delivery with JIRA and GitHub — project tracking, code review and team collaboration.

Android Developer

Oct 2017 – Jul 2020

[Sriyaan Technologies](#) — Thane, Maharashtra

- Designed and built advanced Android applications using Java, XML, REST APIs and Firebase.
- Collaborated with cross-functional teams to define, design and ship new features.
- Integrated external APIs, Firebase push notifications and third-party SDKs.
- Continuously evaluated new technologies to maximise development efficiency.
